MEMORANDUM

At my request, Mr. Ameshey made inquiry regarding who testified on the Paper Clip program. He reported this afternoon that he had received a telephone call from a person holding the rank of Captain in the Navy who knew about the situation, that this man told him that Bosquet N. Wev was called up to the Senate to testify "in connection with somebody in your Department on the Paper Clip program" but that this was "incidental to the real reason which actually was to testify against some State Department man. Ameshey also reported that a Lieutenant Cone of the G-2 worked with Wev and also went up to the Hill with him. Whether there were also Army representatives, Ameshey could not learn.

I called Mr. Pourifoy and told him the substance of the foregoing. I said that if he had no objections, I proposed to tell this to John Sullivan. He said he had no comment. I said it had already been demonstrated that the testimony that Wev gave was false, and that I was entitled to know whether the Navy Department authorized that kind of testimony.
